

CVC Reading — Labeling the Environment

Base Sheet

Activity Sheet

The child reads word labels and places them on matching objects around the room. This brings reading into the real environment.

What You Need:

- 10-12 word labels on cards or sticky notes
- Tape or poster putty
- Objects in the room that match the words

Steps:

1. Prepare 10-12 word labels for objects in the room: rug, cup, pen, lid, mat, box, bag, hat, fan, bed.
2. Show the child the stack of labels.
3. Child reads the first label: 'rug.' 'Can you find the rug and put this label on it?'
4. Continue with each label.
5. When all are placed, do a 'reading walk' around the room to check.
6. Leave labels up for the day!
