

# Land and Water Forms — Isthmus and Strait

Base Sheet

Activity Sheet

Third pair of opposite land and water forms: isthmus and strait. Building the full collection of land/water form pairs.

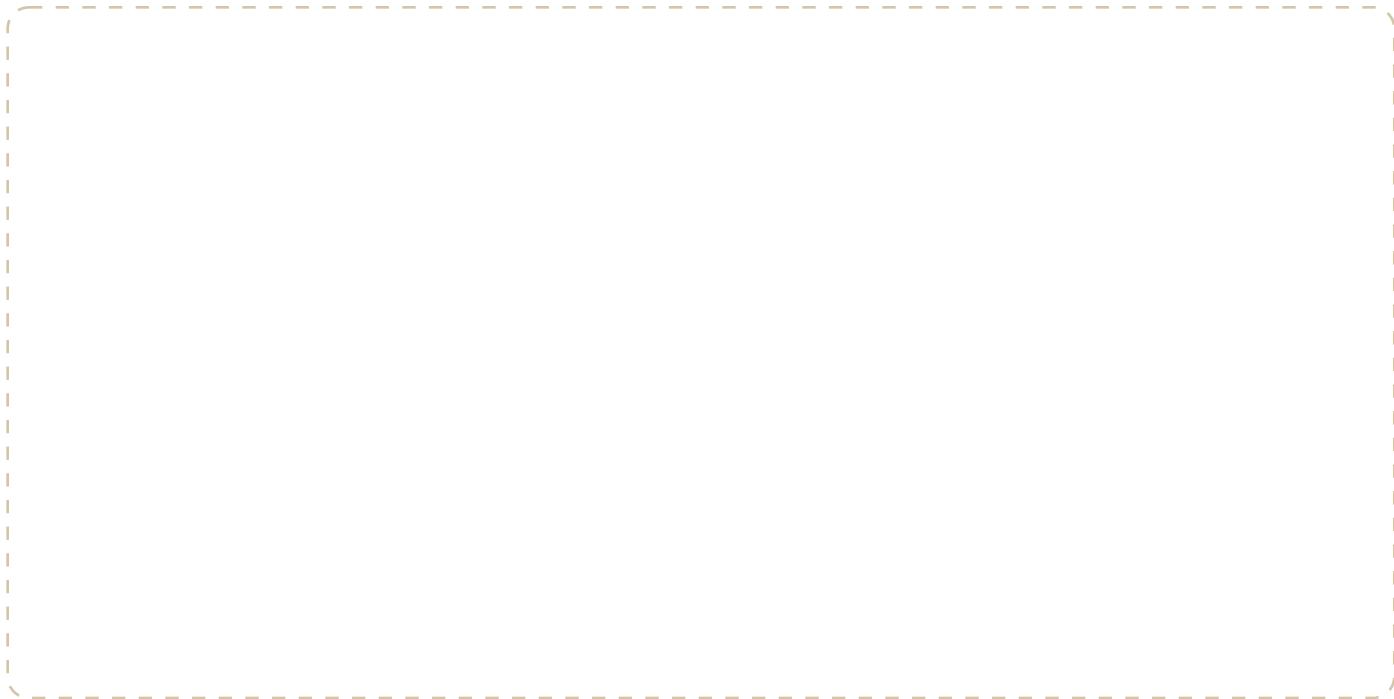

## What You Need:

- Land/water form trays (isthmus and strait)
- Water
- Drawing paper
- Colored pencils
- Map or globe

## Steps:

1. Review island/lake and peninsula/gulf.
2. Introduce isthmus: 'A narrow strip of land connecting two larger pieces of land.' Pour water.
3. Introduce strait: 'A narrow strip of water connecting two larger bodies of water.' Pour water.
4. They're opposites again!
5. Draw and label each.
6. Real examples: Isthmus of Panama, Strait of Gibraltar.

## Work Space:

Montessori Homeschool • Print on US Letter (8.5 x 11") • Activity sheet — print on standard paper
