

Constructive Triangles — Second Box (Blue Triangles Without Lines)

Base Sheet

Activity Sheet

Working with constructive triangles without black guiding lines. The child must figure out how to combine triangles to make shapes using only visual judgment.

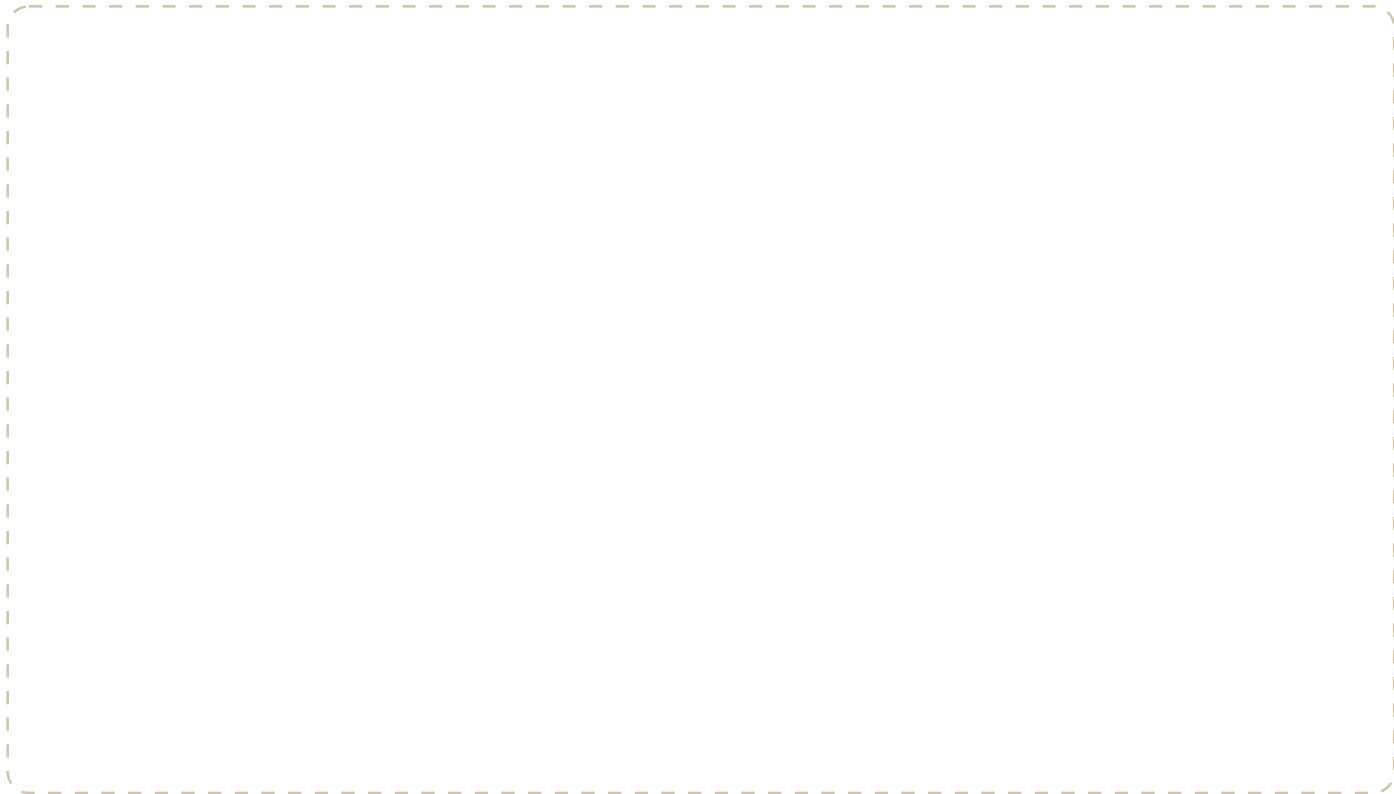

What You Need:

- Constructive Triangles — set without guide lines
- Work mat
- Blue box for reference (optional)

Steps:

1. Present the second set of constructive triangles (no black lines).
2. 'Remember how triangles can make other shapes? This time there are no lines to guide you!'
3. Start with two right triangles. 'Can you make a rectangle?'
4. Try making a square from two triangles.
5. Try making a larger triangle from two smaller ones.
6. Challenge: create as many different shapes as possible.

Work Space:

Montessori Homeschool • Print on US Letter (8.5 x 11") • Activity sheet — print on standard paper
