

# Creating a Cultural Display — Assembling Your Country Study Materials

Activity Sheet

Base Sheet

The child creates a display table or poster board featuring all materials from the country study: research notes, map, flag, cultural art, food connection, and any artifacts. This teaches curation and presentation of knowledge.

## What You Need:

- All country study materials collected this week
- Poster board or table for display
- Labels and caption cards
- Tape or glue
- Markers
- Optional: cultural artifacts

## Steps:

1. 'Museums and libraries create DISPLAYS to teach people about topics. Today you will create a display about [country]!'
2. Gather all country study materials: research organizer, labeled map, flag drawing, cultural artwork, climate/food chart.
3. Arrange on a table or poster board. Group related items together.
4. Create labels and captions for each item.
5. Add a title: '[Country Name] — A Study by [child's name].'
6. Optional: add artifacts if available (a food item, a fabric, a toy from that culture).
7. The child explains the display layout: 'I put these together because...'

## Work Space:

A large, dashed rectangular border occupies the bottom half of the page, intended for the child to draw or write their work space.
