

# Constructive Triangles — First Box Review and Discoveries

Activity Sheet

Base Sheet

Revisiting the blue constructive triangles to discover all possible shapes that can be made, recording findings in a geometry journal.

## What You Need:

- Constructive Triangles — Blue Box (rectangular box)
- Work mat

## Steps:

1. Open the blue constructive triangles box.
2. Take out two right-angled triangles of equal size.
3. Match the black lines together. 'What shape did we make?' (A rectangle!)
4. Continue with other pairs: two form a square, two form a larger triangle.
5. Let the child explore different combinations.
6. Name the resulting shapes.

## Work Space:

Montessori Homeschool • Print on US Letter (8.5 x 11") • Activity sheet — print on standard paper
