

Memory Game — Quantities 1-10

Base Sheet

Activity Sheet

A Montessori memory game where the child is given a number, walks across the room, gathers that quantity of objects, and brings them back. Develops number sense and working memory.

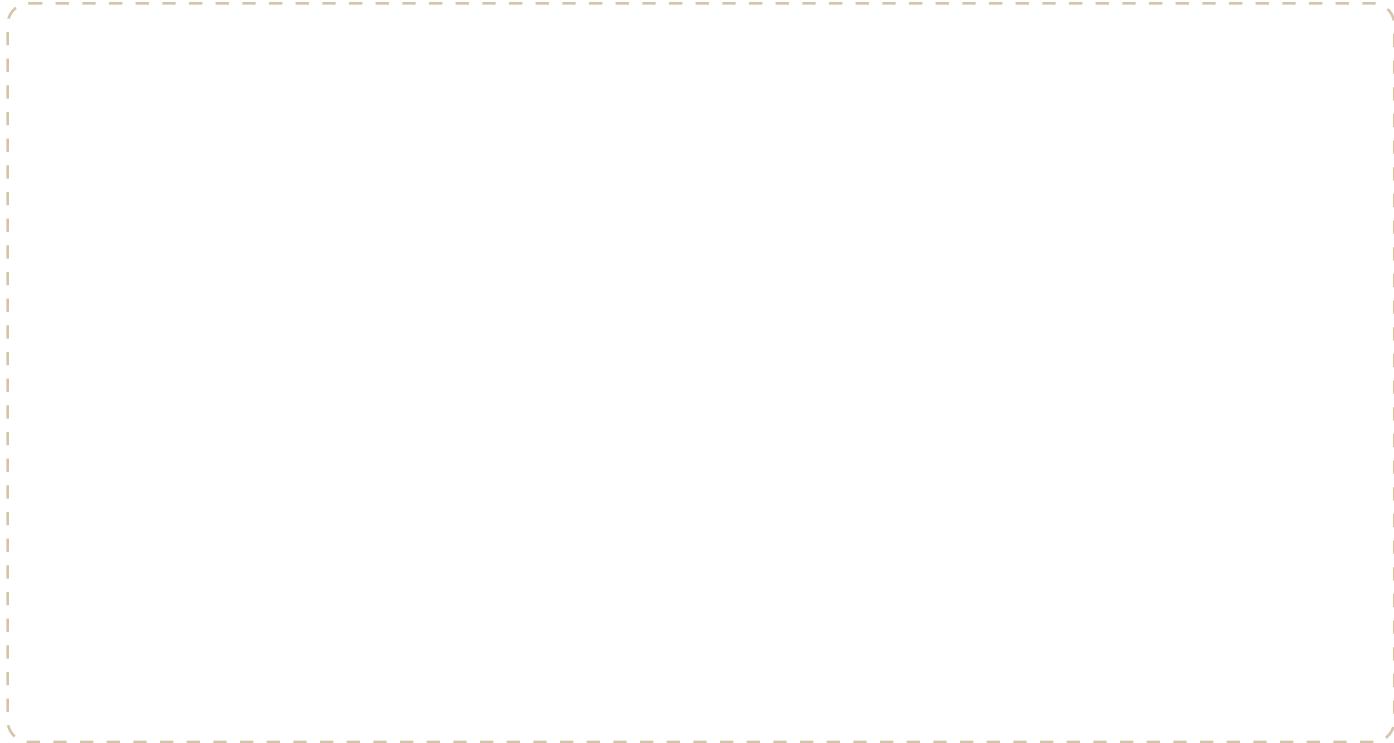

What You Need:

- Numeral cards 1-10
- 50+ small objects (beads, buttons, or natural objects)
- Two mats or trays
- Small basket for carrying

Steps:

1. Set up a mat on one side of the room with small objects (beads, buttons, acorns).
2. The child stands at the other side with numeral cards.
3. Child draws a numeral card (e.g., 7).
4. Child walks to the object mat and counts out 7 objects into their hand.
5. Walks back. Together, verify: count the objects. Does it match the card?
6. Play multiple rounds. Mix up the cards.

Work Space:

Montessori Homeschool • Print on US Letter (8.5 x 11") • Activity sheet — print on standard paper
