

## **Q2 Science Review — Seasons, Plants, and Animals**

**Base Sheet**

Activity Sheet

Comprehensive science review covering Q2 topics: seasons, plant life cycle, animal kingdom classification, and detailed bird and fish studies. The child creates a science collage showcasing their knowledge.

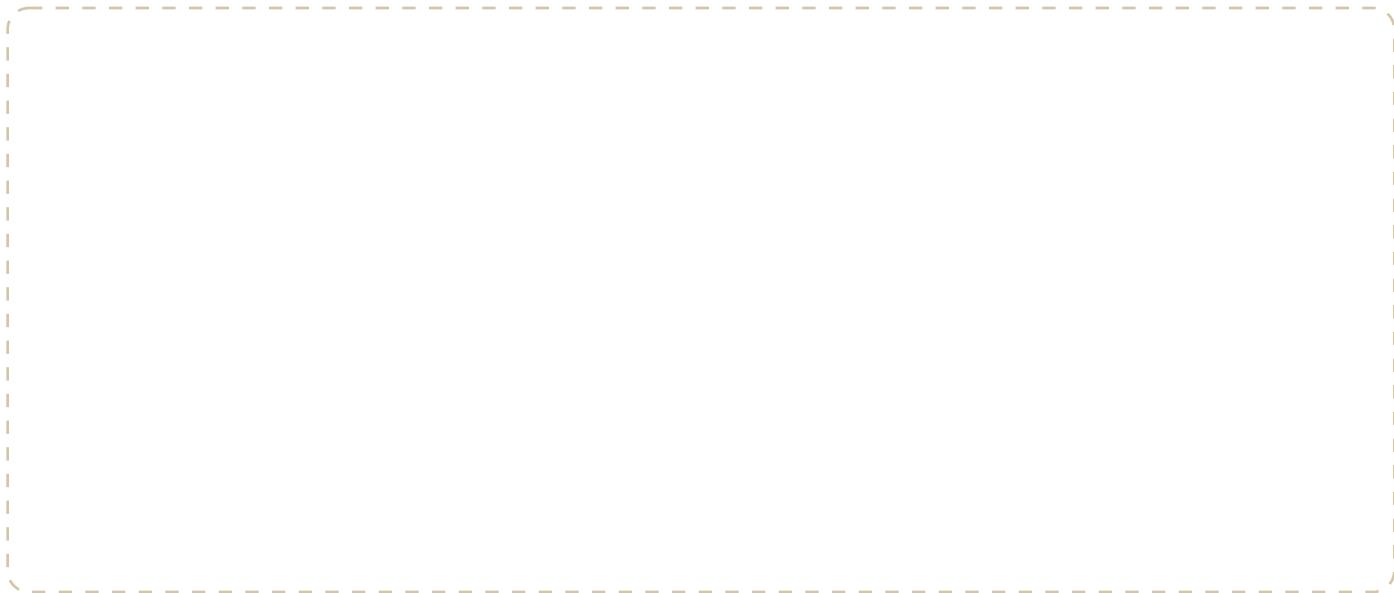

### **What You Need:**

- Large paper for collage
- Magazines for cutting
- Drawing supplies
- Glue
- Scissors
- Labels or markers

### **Steps:**

1. 'What have we learned in science this quarter? Let us remember together!'
2. Seasons: 'Name the four seasons. What season are we in now? What changes happen?'
3. Plants: 'Tell me about the life cycle of a bean plant: seed, sprout, seedling, plant, flower, fruit, seed.'
4. Animals: 'Vertebrates and invertebrates. Name the five vertebrate classes.'
5. 'Tell me about birds and fish — what makes each special?'
6. Create a science collage: child draws or cuts pictures representing each topic.
7. Label the collage and display it.

### **Work Space:**

Montessori Homeschool • Print on US Letter (8.5 x 11") • Activity sheet — print on standard paper
