

Continents Review — Animals of Each Continent

Base Sheet

Activity Sheet

The child reviews all seven continents and identifies characteristic animals found on each one. This integrates geography knowledge with zoology, deepening the child's understanding of how living things are connected to their environments.

What You Need:

- World puzzle map or large world map
- Animal figurines or picture cards (at least 2-3 per continent)
- Continent labels
- Work mat

Steps:

1. Lay out the world puzzle map or a large world map.
2. Review each continent name using a three-period review.
3. Present animal figurines or picture cards sorted by continent.
4. 'Every continent has special animals that live there. Let's discover which animals belong where!'
5. Place animals on their continents together: kangaroo-Australia, elephant-Africa, panda-Asia, etc.
6. Child matches remaining animals independently.
7. Discuss why certain animals live only in certain places (climate, habitat).

Work Space:

A large, dashed rectangular border occupies the bottom half of the page, intended for the child to draw or write in.

Montessori Homeschool • Print on US Letter (8.5 x 11") • Activity sheet — print on standard paper
